

Halogen Infrared Spots IRS

Medical Device Class IIa – CE0044

Intended Use

Heat treatment of patients with infrared radiation in physiotherapy

Radiation field

Equipment

- Powder-coated aluminium / sheet steel housing
- Housing colour: white / black
- 3 halogen lamps à 200 W, emitting infrared radiation in a therapeutically effective range
- 3 reflectors, spreading the radiation wide and evenly
- Testified photobiological safety according to DIN EN 62471
- Electronic timer with repeat-function
- Protection grid to avoid burns
- Main switch with power indicator
- Mountable to Stand SST / SSU / SSV
- Mountable to Wall Arm HWA
- Mountable to carrier system ACROBAT 2000 of Ondal

Technical Data

Device Article Number	Halogen Lamps	Heating Capacity (W)	Nominal Voltage (V)	Outer Dimensions (mm) L x W x H
IRS 0076.010	3	600	230	700 x 395 x 145

All dimensions are given in SI units

Infrared spots IRS are mountable to the following carrier systems:

Carrier System	Manufacturer
Stand SST / SSU / SSV	Heuser Apparatebau GmbH
Wall Arm HWA	Heuser Apparatebau GmbH
AC2000	Ondal Medical Systems GmbH
